How the **Mips®**
Safety System works

Mips® Technology

P2R helmet features MIPS technology to reduce rotational forces during impacts, providing extra protection on the road so you can ride with confidence.

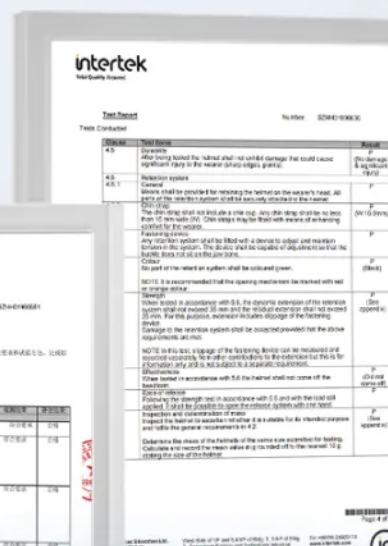

24429-2009

EN1078: 2012+A1:2012

16CFR 1203

HELMET CERTIFICATION

Safety Certified

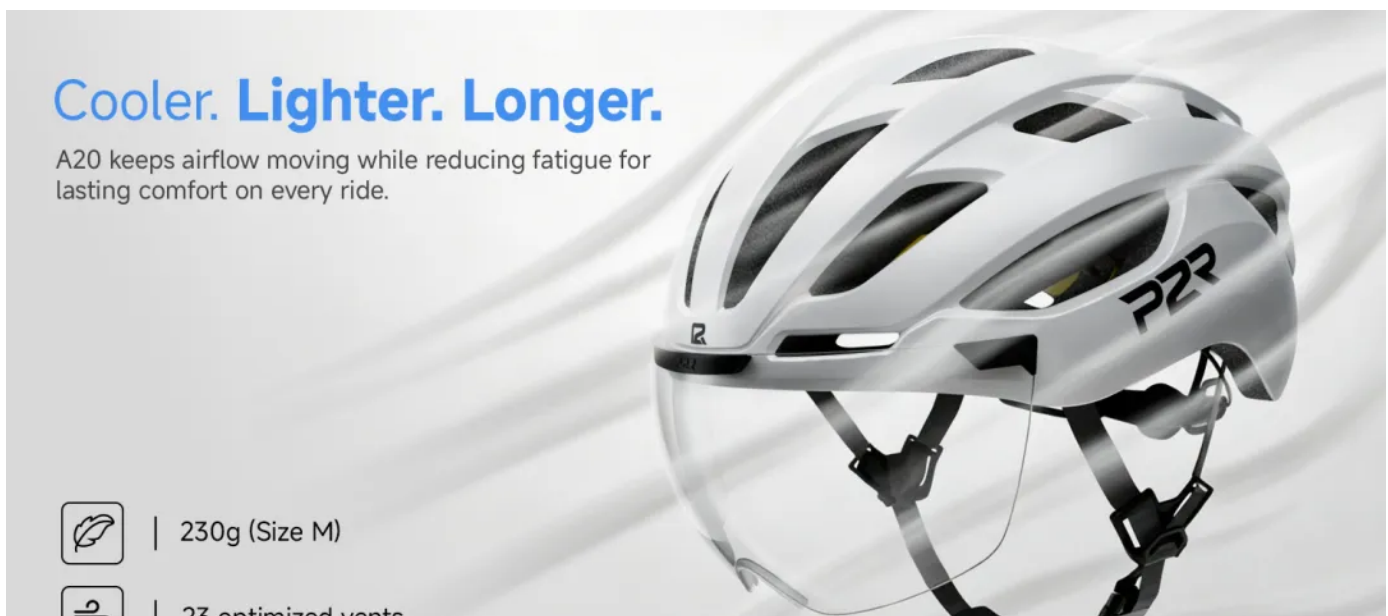

Tested and certified to CE, GB, and CPSC standards for proven protection in real-world scenarios.

Ride Bright, Stay Seen

Equipped with three brightness modes to enhance visibility and safety in low-light or nighttime riding.

*Included with all A20 versions. No separate purchase required.

Cooler. Lighter. Longer.

Featuring 23 optimized vents and weighing just 230g (Size M), A20 keeps airflow moving while reducing fatigue for lasting comfort on every ride.

Magnetic Photochromic MagLens

OTG Design
Fits over glasses

Photochromic Adaptation
Adapts to changing light

Included
with
A20-MagLens

Photochromic MagLens

Adapts to changing light conditions with up to 60% tint in just 1.0s, ensuring clear vision throughout your ride.

*Included exclusively with the A20-MagLens and compatible with this version only.

Magnetic Snap-on Visor System

Add shade when you need it, remove it when you don't.

Included
with
A20-AT

2026/08/09

Qualified Decided to try out this helmet after hearing about it on Reddit and the Virginia Tech ratings. Helmet looks great and fits well, I got a M for a 57cm circumference head. I enjoy the matte finish and the light on the back is very useful and easy to use. The visor is nice but sometimes can dislodge too easily when going to adjust the helmet, I still like it for the slight additional sun cover. Story time, I got this helmet less than a month ago and unfortunately was hit by a car turning into the bike lane and sent flying off my bike. Helmet did its job, and protected my head as you can see in the photo. I'm sad I have to replace it so soon, but I am

Qualified Size fits correctly, visor holds and flips well and clears my nose and glasses! Matched the matte black to my Trek Domane AL5 Gen 4 in matte black (w/white lettering). Light is easily removed and works well. Glad shipping timeframe was reasonable from order date, even when showing backorder and shipping to Ottawa Canada, July 2026. Have ridden with a handful of times now, and would recommend to anyone looking to
