

Cariboo Magnesium Pro (lime green) Balance Bike

Feather Light, mighty strong - only 2.50 kg! Cariboo Magnesium Pro is one of the lightest balance bikes on the market. The lighter the bike, the easier it is for a child to learn the basics of bike riding. Made of magnesium alloys - magnesium alloy, used in the production of professional cross - and road bikes, is a perfect material for the frame of a balance bike due to its properties. No welding components -the frame of Cariboo Magnesium Pro is made of one element only: the use of magnesium alloy allowed us to obtain a unique, streamlined shape with no sharp edges. **Safety First - Cariboo Magnesium Pro meets the strictest of all safety standards (EN71) for children's products.**

Magnesium alloy bikes: what makes them stand out?

Magnesium alloy is unique in its properties: it is ultra-light- as much as **75% lighter than steel** and **33% lighter than aluminum**. The first balance bike must be lightweight! Only then a toddler can learn the basics quicker and not get discouraged. Weight is not the only advantage of the magnesium alloy; it is also stiff so perfectly **shock absorbant**. It is very resistant to corrosion and flexible when it comes to shaping.

The Right Fit

Kids grow so fast! In order for a balance bike to be used for a longer period of time, it should have a range of seat and handlebar adjustments. Movino Magnesium Pro features an adjustable seat within the range of: 32 cm to 39 cm, and the handlebar: 55 cm to 61 cm. When buying a balance bike, it is always good to check out how big of a distance there is between the steering handle and the seat. If the distance is too significant, the child might not be able to reach the steering handle. Magnesium Pro bikes feature handlebars that are no more than 30 cm away from the seat, making this model perfect even for the youngest.

Specification

Handlebar height	55 - 61 cm
Handlebar width	41 cm
Seat height	32 - 39 cm
Seat-handlebar distance	30 cm
Bike length	87 cm
Frame Material	magnesium alloy
Tyres	EVA foam
Wheel diameter	12"
Weight	2,5 kg
Age	2 - 5 years
Permissible user weight	30 kg
Colour	lime green
Manufacturer	Cariboo
