

The Flash'Air is ideal for quickly and effortlessly inflating all types of tires or sports equipment.

Benefits of the product :

- Pocket size (71 x 45 x 32 mm) and 130 g feather weight, easy to take on every ride.
- Compatible with both Presta and Schrader valves, as well as the balloons thanks to the inflation needle and extension tube provided.
- Digital display showing real-time pressure and target pressure. Fine-tuning up to 120 PSI / 8.3 BAR with automatic shutdown as soon as the target pressure is reached.
- Built-in lithium battery (7.4 V / 300 mAh) rechargeable via USB-C (cable supplied) with LED charge level indicator.
- Built-in LED lighting, convenient for use at night or in low light areas.
- Protective silicone cover provided in the packaging to absorb shocks and provide better grip.
- Bilingual manual (FR/EN) provided, product compliant with CE and UKCA standards for shipping within the EU and for export.
